LEASERS WORKING AT CAMP TOBEN

Many favorable reports continue to come from Camp Toben, situated 15 miles from Goldbank. The latest is contained in a letter received the early part of this week by E. P. Waldo from his partner, A. H. Hoyt, who is developing properties there in which Mr. Waldo is interested.

In an interview with a Tribune representative Mr. Waldo stated that development was being vigorously prosecuted in that section this winter. Several leasers are at work and many prospectors are developing their ground with good results.

On the White Iris claim, in which he is interested, a crosscut tunnel is being run to intersect the main lead traversing the property. This ledge is about eight feet wide and on the surface yields average values of about \$20, principally in gold. The tunnel is now in 30 feet, at which point a blind lead about three feet in width has been encountered, which shows a goodly quantity of the yellow metal in the pan. Mr. Waldo is much pleased over this latest development and is confident that when the main ledge is tapped pay rock is shipping quantities will be found.

On the Squires lease on the Dandy claim or the Hill property, a shaft has been started about 40 feet from the ledge. At a depth of 10 feet a vein three feet wide was encountered, from which the leasers are sacking ore. This ledge shows some free gold and the leasers intend to thoroughly prospect it, at the same time continuing the shaft down to tap the main lead, which will require about 50 feet of sinking.

The largest and most important development during the past three weeks was made on the Gypsy group, owned by Mullin and Schofield. A tunnel has been driven in on the vein for a distance of 50 feet. The ledge is composed of porphyritic quartz, with about two feet of talc on the hanging wall. On the surface this ledge gave returns of \$8, but in the face of the tunnel the quartz, which is ten feet in width, has turned into galena and copper sulphides and the values have greatly increased. No assays have as yet been made but solid chunks of galena weighing over 100 pounds are taken out daily and the owners are confident of having a shipper with a little more development.—Exchange.

ALL EYES ARE ON RAWHIDE

(Continued from Page 1.)

says as high as \$20,000. The Miller lease is conceded by all to be one of the best in the district and great developments are expected when cross-cutting begins on the 60-foot level, as sensational values have been obtained in quantity on some of the adjoining properties in the immediate vicinity.

The Miller lease is thoroughly equipped for good work and has a large commodious shaft house over the workings.

Valuable Ore Found In a Gopher Hole

A diminutive little desert gopher is responsible for the latest strike of high grade ore in Rawhide.

B. E. Sweet and L. Farr, who are operating on the I. X. L., which joins the rich Poor Boy claim, while prospecting their ground recently came across a gopher hole where some likely looking dirt was pushed to the surface. Sweet obtained some water and panned it and both he and his partner were electrified to find a string of gold almost around the pan. They immediately proceeded to open up the ground and now have a well defined ledge 40 inches wide, four inches of which assays as well as \$500. Both Farr and Sweet are much elated over their good fortune. The new strike attracted a great many out to the scene and all who have examined it say that a new bonanza has been discovered.

Control of Tiger Is Sold for \$150,000

One of the biggest transactions yet recorded in the district is the transferring of 51 per cent of the Nevada Tiger Company's property to Mr. McLaughlin of Fairview and associates for the sum of \$150,000. This embraces some of the best ground on the Royal and Tiger claims that have developed showings that have electrified the entire district by the richness and extent of the ore. The entire vicinity is a network of the most wonderful display of gold values and many extremely conservative men, after carefully studying the geological conditions, contend that the largest and richest ore body ever developed in the history of the State of Nevada has been struck. And the fabulous values being opened up in different places on this immense lead bears out the belief of expert opinion.

Even in these days of strenuous finance, big sums have been offered at different intervals for portions of this property, but McLaughlin and associates finally secured control of the bonanza at what is conceded an extremely reasonable price, considering the immense possibilities of this now famous property.

A 60-Stamp Mill is Shipped from Denver

News has been received of the shipment from Denver of a 60-stamp mill by Mr. Polechec of Milwaukee.

This mill will probably be the first one to arrive in Rawhide, where at the present stage mills are becoming an absolute necessity. It is remarkable with the hundreds of tons of ore ready for milling purposes that there are not several quartz mills in the course of construction.

Mr. Polechec is a well known operator who, with H. H. Hunter, has purchased one of the Murray leases on the Bald Hornet Fraction that has shown up such splendid values of late.—Rawhide Rustler.

The Nevada Club will cater to your particular wants. It is the place of uniform courtesy.

You can't buy macaroni in a dry goods store, nor can you buy whiskey in a grocery store, for we sell whiskey to them; so you can save money by buying from H. J. Hall & Co.

The finest grade of liquors and cigars can be found at the Nevada Club.

Go to H. J. Hall & Co. and get your whiskey and save from one to two dollars on the gallon.

MAZUMA HILLS SHIPS RICH ORE

The fourth shipment of ore from the famous Mazuma Hills at Seven Troughs is being hauled to Lovelock from the mine by the Frey freight-trucks and stored in the Pitt warehouse, awaiting the completion of a carload. The last loads, containing 178 sacks, arrived Tuesday morning, making 460 sacks now in the warehouse. Another load will be brought in today, when the consignment will be forwarded for treatment to the smelters at Salt Lake City.

As soon as the present carload is completed the teams will commence the hauling of the fifth carload, and regular shipments in the future will be continued.

The ore being brought to Lovelock is the accumulation from the development of the property during the past two months, no stoping of any note having been done to produce the tonnage now being marketed.

The value of the ore being sent out could not be ascertained, but the Tribune representative was informed by an official high in the councils of the company that the present shipment would eclipse any yet forwarded from the property.

The Reagan lease, situated on a portion of the Mazuma Hills ground, has also joined the ranks of "high-grade" shippers. A carload of ore from the lease, some of it of the "picture" variety, will be brought to Lovelock next week and sent to the smelter. Preparations for moving the ore are well under way, and the lease has entered the new year with one of the banner high grade shipments of the Seven Troughs district.—Lovelock Tribune.

It will be unnecessary to go through a painful, expensive operation for Piles if you use Manzan. Put up in a collapsible tube with nozzle, ready to apply. For any form of Piles. Prices 50c. For sale by Tonopah Drug Co.

A HAPPY THOUGHT.

Stranger—My friend, why are you swearing so?

Cussity—Why? Because of a blank fool of a doctor. I got some pills for a pain in my back and the directions read, "Take one a half hour before you feel the pain coming on."—Harper's Weekly.

KINDNESS.

He—Pardon me, madam; I didn't see you.

She (distressingly plump)—Oh, my dear monsieur, you are so kind!" —Transatlantic Tales.

The best of service can be found at the Nevada Club; the most magnificent establishment west of New York.

Pinosalve Carbolicized acts like a poultice, draws out inflammation and poison. Antiseptic healing. For chapped hands, lips, cuts, burns. Sold by Tonopah Drug Co.
